## *Vortex*

Production Pack for Partners & Tour Venues

### **Description**

Step into a world where rhythm unravels, gravity dissolves and energy converges. *Vortex* is the new dance production from Julia Robert & Rudi Cole, where the stage becomes the 'eye of the tornado.' Magnetic, vital, and captivating, this powerful work reveals how we humans can activate deep reservoirs of unexplored resilience within ourselves to adapt, transform and evolve in any apparent chaos.

Performed by the international powerhouse HUMANHOOD dancers, the cast of 6 moves with precision and virtuosity, synchronising seamlessly with a cinematic soundscape that resonates throughout the auditorium, immersing the audience in the pulse of the dance.

In this visionary work, the apparent boundaries between body and energy dissolve, channeling the cyclical forces that shape our existence — from the swirling galaxies of the cosmos to the unfolding evolution of human consciousness.
